MDI Survey— Grade 7 Students

Grade 7 students will receive information about the **Middle Years Development Instrument (MDI)**. The MDI is an online survey that students complete in schools in November. The survey takes about 1- 2 class periods and is supervised by school staff. This study is led by researchers at the Human Early Learning Partnership (HELP) at the University of British Columbia (UBC), and is sponsored by your school or school board, the United Way of the Lower Mainland, and the Government of BC.

The Human Early Learning Partnership (HELP) at UBC is using the Middle Years Development Instrument (MDI) to understand more about children's thoughts, feelings

and experiences inside and outside of school. The MDI is a questionnaire that gives schools and communities valuable information about the strengths and needs of their children.

To find out more, read on about the MDI visit <http://earlylearning.ubc.ca/mdi/>
