Junior Tech Studies students rushed to complete their projects this week in the woodshop taking pride in completing their projects to take home in advance of the summer vacation. Using all of the New Curriculum Core Competencies and in particular Creative and Critical Thinking students in the wood

work shop were able to individualize their projects choosing the colour and final coats of varnish to complete their work with pride. The school will be using some of these projects as gifts to give to special guests when they attend special events at our school. Mr. Lee will be buying a special stamp with the JO School crest to adorn the projects!

Trades and Career Day:

VSB Career Programs came to JO this week bringing with them opportunities for careers and immediate employment beyond Grade 12. Students in the classes had an opportunity to meet directly with industry representatives and some students walked out with summer employment in place. Thanks to all the staff that brought students to this event as well as the STEM and Tech Studies students that helped to set up this event. Thanks also to Wendy Gilmore and Karen Blake from VSB Career Programs for bringing this event to JO as well as Ms. A. Wong, Mr. Silver, Mr. Lee and Mr. Thind for hosting the event at our school and creating direct employment opportunities for our students.
