

SYNOPSIS

Physical Education 11/12 consists of a wide range of activities both on and off-campus. In addition to our regular curriculum we will be participating in various field trips as well as providing the opportunity for authentic certification in CPR Level A / C and Sports First Aid & Injury Prevention modules. The purpose of offering these types of activities is to broaden and enhance student experiences and to further our understanding in life-long healthy living pursuits. A course fee of \$90 will be requested to help fund the costs associated with these activities preferably in the form of a personal cheque made out to Templeton Secondary School, As a reminder, the Vancouver School Board will not deny a child access to athletic program participation because of financial hardship. If you have any questions/concerns regarding this notice please do not hesitate to contact us at the school.
