Javascript enabled browsers are required for this validation on the screen. If a parent uses a browser without Javascript enabled and attempts to schedule appointments with a conflict, the next screen will notify them of the errors.

### Appointments Booked Successfully

Once the appointments are booked the screen will display the list of appointments for the student.

This calendar displays the appointment times for four teachers and shows "Unavailable" appointment times and there is a region that cannot be booked as these times have been scheduled already for another student, "Mike", and this parent is already busy at these times. Only if a sibling has an appointment booked, will the student's name be displayed for a parent, thus making it easier to book adjacent appointments.

## Printing Parent Appointment Schedule

From the home page it is possible for parents to generate a PDF document with the list of their appointments. By clicking on the "Print Appointments" button a window will pop-up asking the parent what they wish to do with the document.

In Internet Explorer it is recommended that people click the "Save" button, save the file and then click "Open" to view the file. IE sometimes has a problem downloading and opening PDF documents that are generated from web sites.

Click "Open" after the download is complete to view the PDF.

### Parent Schedule PDF

If the parent has done well with their scheduling they will have a nice set of consecutive appointments. The generated PDF will list the appointment times, the student and the teacher with whom the appointment is booked.
